

GOALKEEPER CLINIC

Sunday,
April 15th

#thisisGRASSROOTS

Alberta soccer & Big Country are teaming up to bring you a day of development, learning, and fun!

This event features a Festival-style training approach, which aligns with the FIFA-promoted Preferred Training Model (PTM) and Long-Term Player Development (LTPD). Introduction to this development plan helps to provide a positive base for communities to develop their grassroots soccer programs upon. For more information on FUNdamentals Festivals, PTM and LTPD please visit: www.albertasoccer.com/player/grassroots/festivals-preferred-training-model/

The first portion of the morning and afternoon sessions (parent coaching) introduces coaches to the activity stations they will be delivering in support of ASA staff . Players will then be invited to participate in a station rotation of goalkeeper-specific games and activities. This engaging and practical training session that will give you the tools that you can take home and train on your own. For more information on district outreach opportunities, please visit: www.albertasoccer.com/player/grassroots/district-outreach/
